ASSOCIATED PRESS TELEGRAMS

HAVAS AGENCY

Lisbon 12th.

Yesterday the Portuguese chambers closed. No message was read.

London 12th.

A telegram from General Brackenbury, who is at the head of a detachment under Lord Wolseley, announces the death of the Mahdi. This news, however, remains unconfirmed.

Berlin 13th.

It is currently believed here that the vacancy in the Governorship of Alsace Lorraine, caused by the death of Field-Marshal de Manteuffel, will be filled by Prince Hohenlohe.

PRESS TELEGRAMS.

Rio Janeiro, 11th.—The Niger has entered this port.

To-day Mr. Moreno presents his credentials as Argentine Minister to his Imperial Majesty.

The Elbe and the Aconcagua sail for the River Plate.

Rio Janeiro, 11th (later)—In his speech on the occasion of presenting his credentials as Argentine Minister, Mr. Moreno stated that his Government in hastening to supply the vacancy caused by the retirement of Mr. Quesada, had wished to pay a high compliment to the Brazilian Government. His mission, he went on to state, was to continue to foster the friendly relations existing between the two countries.

Valparaiso, 11th.—During the last fortnight it has rained heavily, and the rivers have risen considerably.

Lima, 11th.—Gen. Iglesias has named Monseñor Lovar delegate for the central provinces.

Patagones, 13th.—On the 9th inst., Dr. Dardo Rocha's candidature was proclaimed in this town. An immense concourse of people formed the principal feature of the ceremony.

The Pomona is in port. The Villarino awaits the arrival of Commander Palacios with 400 Indians.

The weather is very fine.

Concordia, 13th—Dr. Rocha's portrait appears on the first column of the new paper, the *Ley*.

The river is rising rapidly; the Mocoreta Bridge is under water.

Tucuman, 13th—Two clubs have been organized here for the support of Dr. Dardo Rocha's candidature.

Rosario, 13th—The recent storms have caused great havoc on the estancias. In some places the losses have been considerable.

The dramatic company, that has arrived, has been received coldly by the public.

There were over 4,000 people in the Plaza 25 de Mayo last night. The reason of this agglomeration of persons was that fire-works were on the programme.

Montevideo, 13th — M. Francisco Melian has been appointed Oriental Consul in La Plata. M. Melian is a Peruvian by birth, but has been naturalized Oriental.

Dr. Magariño is very seriously ill.

It has been raining since yesterday.

Saladillo, 13th—A goods' train, coming from Buenos Ayres, went off the line to-day, at Kil. 74. Fortunately, nobody was hurt, and damages are not great. The cause of the accident was a horse crossing the line and caught by the engine.

REVOLUTION AT CORRIENTES

Of all the provinces in the Argentine Confederation, Corrientes is the most unruly and the most easily disturbed. So accustomed are we now to hear of a Corrientes revolution, that we attach less importance to a revolt there, than in any other quarter; authority in that province seems to have taken no root. We have seen a Corrientes revolution begun in a ball room and terminate in a pulperia; a Governor kidnapped whilst dancing a polka and in the dead of night carried over in a row boat to the Gran Chaco, and left there with no other lodging than the cold, cold ground. The usual circumstances heralding a revolution, the premonitory signs of a coming row, the uneasy public feeling in the town, all are unnecessary in Corrientes, where between night and morning everything is upturned and changed. and the Governor of yesterday may be an outcast or a close prisoner to-day. Except in Central Asia we can find no parity for Corrientes, and even in Afghanistan Government seems to have greater hold than in this rich but unfortunate Argentine province.

One of the greatest caudillos ever known in Corrientes was a Scotchman named Campbell, of whom Robertson in his letters gives the most amusing history. Strange fact, that of all the provinces in this Republic, it is only in Corrientes that a Scotch plough boy descended to the rank of a common gaucho tambero and sanguinary caudillo, and there must be evidently some secret disturbing element at work' when it works such change on the quietest and most orderly of the whole Caucasian race.

If climatic or other Correntino influences work such change on a Scotch immigrant, how infinitely more powerful must they be on a native born Correntino, a man with revolt bred in the bone and sucked at the mother's breast. Corrientes is a rich fertile province teeming with oranges and fat cattle, but it is unfit for the institutions it enjoys, and a strong military commander is what it needs instead of a constitutional Governor with house of legislature. Let us all mark it on our tablets that henceforth any province that boasts of too revolutions in a single presidential term should be at once federalized, and ruled as federal teritory, which would be an immense saving to the people.

Nothing could be shorter than the history of the present row, since in plain truth, as yet no details have come to hand. We only know that Toledo has thrown up the "poncho", and popped Governor Derqui into prison; That the rebels hold the city, their troops patrol the town, and that in the country district they are gathering men and horses as fast as possible. There is a strong current that Toledo went to visit Governor Derqui, and whilst taking "mate," the got into a heated argument about the rival candidates, resulting in Toledo pitching the "mate" cup and "bombilla" at the Governor, and finally kicking H. E. This version was brought down by some parties who arrived down on Sunday from the Gran Chaco, and we learn from another source that the people are all flying from Corrientes over to the Gran Chaco, and numbers have arrived at one of the colonies there.

In the previous revolution Major Toledo was put up, and his authority upset, the Governor being in Buenos Ayres at the time. In the present row the Governor is put up by Toledo's brother, the Colonel, and the town is held by his men and followers.

The great question is for whom does Toledo fight? No one in Buenos Ayres seems to know. Some say Toledo is a Rochista, others that he is a Celmanista. We, for our part, know nil, and the following telegram from the Gran Chaco may be accepted as the only reliable news current, if we except military telegrams, which are of course kept up in the War Office:—

Resistencia, Gran Chaco,
July 11th, 1885.

Colonel Toledo has risen with all his regiment against the Constitutional authorities of Corrientes, placing in prison the Governor and all his friends.

Very few of the Government people have been able to escape.

All this occured since 2.30 this afternoon.

Another telegram says that Toledo's men have been searching all through Corrientes for the Governor, but could not find him.

Yesterday morning President Roca was closeted with the War Minister, adopting the most active measures to put down the revolt before it extends. Intervention, we suppose, is the finale.

At a late hour it was known that the National Government is determined to take the most energetic steps; to send General Ayala, who is in Entre Rios, up with troops, also to bring the troops in the Chaco, in Missiones, Reconquista etc all on the city of Corrientes, as according to fresh advices the affair is more serious than at first supposed.

Three steamers leave to-day for the scene of action, and respecting the unfortunate Governor all sorts of rumours are current.

LONDON OPINION.

It is very remarkable that all our London friends write out expressing much surprise that the news of the Pelligrini loan contract has not reduced the premium on gold to about 10 per cent. People resident in London, and who have large interests in the Plate, give us by last mail the most optimistic views about the country, and congratulate us all here on the successful close of the Pelligrini mission as the starting point for a new departure for the Plate. They will, however, be somewhat surprised when they receive some of the native newspapers and read the expression of a very large portion of the community respecting this business. It is really most amusing to read all that our London friends have to say about the splendid future opening to the country, on the £1,800,000 new money secured to the Government by the transaction. They seem, however, to forget or to ignore in toto the magnitude of this market, and to be oblivious of the fact that last year, when things were not as they are now, we have seen for a single mail exchange taken for the whole of this much talked of advance. We fear that our friends in London allow their interest in this country to guide their judgment of its market, and that their extremely optimistic views respond more to their wishes and their interests than anything else. The light is now let through the Pelligrini contract, and people in Buenos Aires are, perhaps, better able to measure its consequences on our market, than even our friends in London. We have no wish to anticipate the discussion in Congress on the measure, nor yet to offer an opinion on a subject, which, as the lawyers say, is "sub judice;" but it can not have escaped the notice of merchants that by the new contract the portions of the loans taken firm by the Syndicates and bankers at 82½, are now reduced to simple advances on bonds at no fixed price, it may be 75, and yet it may be 65, as the market price turns out. The advance which the bankers agree to make, on the passage of the new loan by Congress, will hardly suffice to meet the Government's existing requirements in the London market, and, therefore, the term "new money" is not very applicable, since there will really be no new money at all. Yet with this so-called advance, we find the Government will have received a total of 23 millions on the whole 42 millions' loan, which after deducting commissions, expenses and current coupons, must be negotiated at a very good figure to entitle the Government to receive another sovereign from the bankers. By the very terms of this contract, it is clear that that the bankers contemplate the contingency of launching the loan at 75 and failing, of then launching it at 70 and failing, and of finally closing the whole business up at a figure, which, after payment of commissions and interests, will cover the totality of the advance, say 23 millions nats.

It may be, that as yet we have not sufficient knowledge of this contract to entitle us to offer any remark on it, but to-morrow the Minister sends the whole affair to Congress, and then we shall be better able to understand why the large portion of these, loans taken firm at 82½, should be reduced to mere advances on the bonds, and at no fixed price at all. We fear that our London friends have not sufficiently studied the business, and have written by the mail more as our creditors than anything else.

DESCRIPTIVE DIRECTORY.

The great success of the little city Directory, known as "Kidd's Guia," has led to the publication of so many books of a similar kind, that in the multitude of "Guias" now in circulation one is at a loss to say which is best. Our own River Plate Handbook, of course, does not compete with these "Guias," since it is a work of much wider range and compiled for a different purpose, but strangers arriving in this city, if they have the least inkling of Spanish, cannot complain of the want of books to take them over the city and tell them all about the place. On our table is a new book entitled "Memorandum Enciclopedico Descriptivo de Buenos Ayres" published by George MacKern, 7 Calle San Martin, and edited by J. A. Amorena. This new book is more than a "Guia," since it gives a short and interesting account of all our public places, institutions, clubs, and charitable societies. We have looked through the work and consider it most invaluable for those of our countrymen who wish to study the people and the country through their associations and its institutions, since it is impossible to suppose that, without such a Guide, any foreigner, or even native, can form a very exact estimate of all the various institutions in this city. This most useful book, 440 pages, is also supplied with a city Directory, and we gather from the publisher's note that, in the event of receiving sufficient patronage, it is his intention next year to make a new edition giving all the 'fabricas and industrial establishments in the country; a most useful, but ambitious programme, and which, we think, will swell the book to the inconvenient dimensions of a London Directory. We recommend the present work to all our readers as a useful and interesting book to have in one's house in town, or camp, and hope that it will meet with the fullest patronage.

Why is an escaping prisoner like a musical cat? Because he scales the wall.

RINCON DE LUNA.

This is the name of a very great property in the province of Corrientes to be sold by auction on 27 inst, and as some few of our readers may be interested in the sale, we give the following particulars of the property:—

The estancia Rincon de Luna is one of the most famous in the country, and was once a mission of the Jesuit fathers, whose church and convent are now in ruins. The estate measures 18 1/9 square leagues of the very richest and best estancia land, watered, wooded and almost fenced by nature. The timber alone on the land if cut down and sent to the Boca would more than pay the whole legal valuation of the property. There are millions of palm trees, also Lapacho, algaroba, quebracho, nandubay etc. The land is at present stocked with 9,000 head of cattle, 100 pure Durhams and 300 mestiza "lecheras," besides 4 to 5,000 mares, and in former years the cattle numbered 25,000 on the land, which can with ease support 2000 to the square league, say 36,000 head. Much of the land being conveniently situated on the river would be admirably adapted for agricultural colonies, as it possesses the richest black soil. The titles reach back to 1774, and parties wishing to see the estate should go by steamer to Bella Vista, from whence the diligence for San Roque, 3 times a month, will easily take them. The 2/3 valuation gives 6243 m/n per league for the property, which includes estancia house, puestos, corrales etc. The cattle will be sold in "rodeos" and the 2/3 valuation is 3.34 cts per "al corte," a flock of sheep 2/3 valuation 32 cts., per mare 1 nat. dollar, horses 5.35 etc.

The whole rincon 18 1/9 square leagues 2/3 valuation........	113,000 m/n
" stock 2/3 val. about........	40,000 m/n
	153,000 m/n

Thus this magnificent property if sold at 2/3 valuation with 9,000 cows, 100 Durhams, mares etc will only fetch 153,000 m/n which would be the cheapest bargain ever known in this country. The auctioneer has not sent us a notice of the auction, and we publish these few particulars to oblige a friend, and to advise those who may have money for the purchase, of the chance offering.

TRIP TO SANTA FÉ.

RAILWAY INAUGURATION.

Santa Fé, July 6th, 1885

Rosario, on a wet, foggy Sunday morning, is by no means inviting. We drove up to the Post Office with Mr. Hume, and Mr. Ceppi, the *Nacion* correspondent, to post our letters, and then off to Keenan's Hotel, where we met a number of friends, in from all parts. Mr. Geoghegan, estanciero of Pergamino, gave us a long description of the state of the camps and cows at Loreto; he was busy renting 8 leagues of camp from a rich Santa Fé widow. A friend from Belfast told us of the large orders he had got, and was now bound back for Old Ireland in Lamport and Holt's steamer. Mr ...., the oldest English broker in B. Ayres, was just back from Cordoba. The dining room and billiard room were more crowded than the church. Keenan has much improved his premises and has put up one of Burrowe's wind mills to supply the house with water. Mine host, however, seemed to be not in the best of humours, and we attributed it to the weather, but afterwards discovered it was because we had not sent him a handbook, as it appears his lodgers bother the life out of him for the book, and he paid for a copy a month ago and has not yet got it. Mr Waring. the tallest railway contractor in the Plate, met us at Keenan's, and joined the party, as also Mr Hancock, Mr. Munroe, and some others. Mr. McCallum took charge of Mr Kincaid to show him the town, and we drove up to see our old friend W.P., who welcomed us with both hands into his 'sala' where we sat discussing local politics and the future of Canada, until it was time to start to catch the steamer. We never recollect Rosario muddier, and as they say mud in the streets is good luck, we envy the citizens. At 3 o'clock sharp we started for Santa Fé. Along the bank, Mr Gipps showed us Terrasona's, Sotomayor's, and scores of other places. At Terrasona's they have a magnificent vineyard, and most of the vines being from Lambaré quinta, Caballito. Every second place on the river's bank from Rosario to San Lorenzo is for sale, and Mr. Gipps is the broker. It would seem as if half the people are tired of the scenic beauties of the place and want to sell out. The shades of evening were falling fast as we sighted the old Convent of San Lorenzo. I did my best to instruct my companions of the beauty of this scene, of the old Convent walls, of the tops of that stately old pine, where the Argentine Washington slept after beating the Spaniards in the little port below, (San Lorenzo) but they protested they could see nothing particular in the place. The new elevator, put up by, I believe, Mr Burmeister, seemed to attract more their notice than that old historic Franciscan Convent, where so many hundred Franciscan fathers sleep for ever in their narrow cells. Imbued with all the historic associations that surround the spot, we pointed out the place where San Martin with his Argentine cavalry fell on the doomed Spaniards and captured their vessels, most memorable event. I showed them the stately pine where San Martin took 'siesta', and where, 5 years ago, I took a cup of coffee with the then President Avellaneda, but Mr. Craufurd wanted to persuade me it was Diamante, and Kincaid said he was here 20 years ago and heard nothing at all of the story, and that I must be mistaken. The port of San Lorenzo shows great and wondrous improvement; new mole, new mills, and 'ultra mar' vessels at anchor. Wheat, gentlemen, is the agent. Wheat has built up this place, and those piles of wheat-sacks form after all a better monument than the piles of the bones of all the slain under San Martin's banners. It was black, dark night when we reached Diamante, which, in former years was the great pass for Urquiza's warriors from Entre Rios. To-day the place is famous for a flourishing Italian colony; 'tempora mutantur.' The night was wet, dark, and foggy, and our pilot found it difficult enough to creep along, but we never got into the bushes of the islands, nor went aground, although we went clean over one of the most celebrated banks in the Parana, the 'Banco de Paciencia,' where years ago we passed 3 days aground when going up to inaugurate Paraguay with Roque Perez, and Paranhos, both since gathered to their fathers. The Parana, it seems, is very high now, and Mr Ware tells me he would give one thousand pounds if it would but fall a few inches.

At early morning we reached Parana, but the fog was too thick; we could see nothing. We steamed up the arroyo, and at half-past nine, having dodged through all the sinuosities of the stream, we came alongside the granite landing of the diamela city of Santa Fé. We could see at a glance all the damage the port had suffered from the inundations; the bank is eaten away, and the Government has had to spend a good round sum in making a new granite front to the banks. Mr. Hume's arrangements were perfect; we found neat, airy rooms awaiting us at the Hotel Globo, and as it was yet rather early for breakfast, we started off to show Mr. Kincaid the town. But bless my eyes, what improvement in the place since 1879: tramways, railway, steam-mills, factories, coal yards, everything seemed to betoken new life about the place; shops more numerous, and house rents so risen, that people have to set too and build new houses as fast as they can. Hack coaches flying through the streets, as in Mendoza, and long Lombardy farmers' waggons doubling every corner. Two steamers and some 50 small vessels crowd the port; our quondam hotel, the round house of Cabal, is now a stately private residence; no more beafsteaks or mutton chops there, and the few native families that I knew in the place living then in all neatness and humility, all now dressed out in Calle Florida style; new fronts put up to their houses, and new furniture in their 'salas,' the only thing I recognized was the old orange trees, and the diamelas, which seemed time-unchanged, even to a leaf. I cannot now squeeze into this letter the full measure of my second impressions of Santa Fè, but shall reserve them for future correspondence. To-night Mr. Washington Hume gives a grand dinner party; to-morrow is the inauguration, and the next day we are off to Parana. Thus it is really a task to scrape up sufficient time to write a letter for the paper. The weather now is glorious, and we hear on all sides that last week's rain has proved the greatest blessing for the colonists.

LONDON LETTER.

FOREIGN GOSSIP.

(*From our own Correspondent.*)

The frontier negotiations with Russia are supposed to be going on slowly and favourably. Considering that they are, in London, said to be left in the hands exclusively of Lord Kimberley, the negotiations cannot be very important. In fact, we have forgotten all about them. At St. Petersburg they have been busy with the grand opening, by the Emperor, of the Ship Canal from Cronstadt to the capital It formerly took barges three weeks or more to take cargoes from ships at Cronstadt to St. Petersburg, and it was impossible for agents and shippers to contract for delivery of goods within any reasonable time. St. Petersburg will now be what Peter the Gteat intended it to be—a seaport—when he founded the city in 1703. Until this canal was made no vessel drawing more than 9 or 10 feet could cross the bar at the mouth of the Neva. The canal is 22 feet deep. The sea channel, on the western side of the canal, is 350 feet wide. The dimensions are altogether larger than those of the Suez Canal, which is 320 feet wide, but has only 72 feet of the full depth at the bottom. Part of the St. Petersburg Canal will have between the embankments a width of 700 feet, and a full depth of 22 feet in 280 feet of the width. The Liverpool and Manchester Ship Canal is—if it is ever made—to have 100 feet of the full depth, 24 feet. The original contractors for the dredging of the St. Petersburg Canal, Messrs. Morris and Cumming. of New York, were obliged to give it up, as their system of dredging was unsuited to the soil. It was subsequently taken in hand by Russian contractors. The work has taken about 9 years to complete. At the inaugural ceremony the whole Baltic fleet, consisting of 111 vessels and torpedo boats, were lying off Cronstadt.

We, too, are going to have a naval display, not quite of so many ships, but perhaps of a different class. The Squadron of Evolution, as it is to be called, will be commanded by Admiral Hornby, and is to rendezvous at Portland about the 10th of June; it will then sail for Bantry Bay and, making for the coast of Scotland, will visit most of the ports in the two islands There is to be no review, but hard practising with a large fleet of ironclads, torpedo rams, ships and boats. The torpedo flotilla are already manœuvring at Spithead, and are said to present a beautiful appearance as they glide about, worked by signal like ships in line.

The Reed party ridicule the Squadron of Evolution as a motley collection of ships of all classes and ages, some of which steam 17 knots and some five, some powerful, some useless; in fact, a regular rough-and-tumble, unmanageable lot, by Gladstone, out of £11,000,000, and warranted to ram one another, and everything in their course, that does not give the fleet a clear five miles of sea-room.

There is no doubt that, with formidable vessels, like the "Polyphemus," "Devastation," "Inflexible," "Ajax," and the torpedo ship "Hecla," there will be a few duffers knocked together during the late scare; but there will also be the "Oregon," commanded by Captain Seymour, and some of the 150 merchant ships just purchased by our sanctimonious and miserably-sinning Government. Sir Thomas Brassey said again, only yesterday, that the complaints in regard to the Navy "had been much exaggerated." That, from an official, is a virtual confession of guilt, and the awful muff went on to say that by the beginning of the year the new breach-loading guns would be ready!

The Russians and the Reeds together have stirred up the authorities, and if European Powers would only kindly give us a couple of years more, we shall be happy to try conclusions with any three of them. I shall never cease to wonder at the magnanimity of France and Russia for not taking the chance when they had it; but they, too, peradventure, have skeletons in their own cupboards.

According to the St. Petersburg correspondent of the *Standard*, the halt in negotiations with Russia refers to Maruchak, which place is only of importance strategically, as being on the high road to Balkh. For the rest, Pendjeh is to be given to Russia in exchange for Zulficar. To the latter pass, and to Maruchak, the Ameer attaches great importance.

Our troops in Upper Egypt are evacuating their encampments as fast as they can be moved northwards to Cairo. The future occupation of abandoned Souakim is not yet settled. As the Turks won't go, the Italians will be asked to do us the favor to send a garrison there. The whole business in Egypt is a puzzle and a disgrace. They have now set up a rumour that a fanatical rising is being prepared which will far surpass the Mahhi's insurrection in importance. The new movement is in the North-West, and extends to Tripoli, and may seriously affect the French in Algiers and Tunis.

The Canadian rebellion is completely suppressed. The leader, Dumont, has now been captured as well as Riel, and Poundmaker. Yellow-Mud, Can-Man, Breaking-through-the-Ice, White Bear, Big Bear and the rest of the Indians are already in General Middleton's camp, or on their way there.

The Military succees of the Canadian Militia has attracted great attention. The *Detroit News* says:—

"One feat performed by the Canadian troops is one of which the army of any Power on earth might well be proud. These few boys, gathered from the shops, offices and farms of Nova Scotia, Quebec, Ontario and Manitoba, traversed a country much more difficult than the British would have been compelled to cover between Pishin and Herat. They met and conquered an enemy, not so numerous, but brave and better armed than the Afghans and Turcomans. It is a great feather in the cap of our neighbour, and may, indeed, be called the baptism of blood of a young nation growing up on our own border."

I have much to say of them, meantime, about Irish bishops and the still unsettled appointment of Dr. Walsh to the Archbishopric of Dublin and also about Victor Hugo and the Secularisation by the French Government of the Pantheon to recew his remains. The Government knew that if they had not done so, the French bishops would have refused admission to the great poet. He is to be buried on Monday 1st prox. at 10 a.m.

ROSARIO.

(*From our own Correspondent*)

July 10.

The official inauguration of the Santa Fé Railway to the Colonies took place on Tuesday. I had the pleasure of seeing Mr. Mulhall, Mr. Ware and Mr. Hume, who arrived here on Sunday, on their way up to the Capital. Mr. Hume has every reason to be proud of his work: he has finished a hundred kilometres of his line in a very short time. The railway runs in a north-westerly direction, passes through eight colonies, and it is intended to extend it, not only further north, but to build a branch to San Carlos to the south. The project of the extension of the Rosario and B. Ayres line to Sunchales, had the effect of awakening the Santa Fè Government to the fact that Sleepy Hollow would be left out in the cold if they did not rouse themselves. The port of Santa Fé is a wretched one, but a very fair one is to be found at the junction of the Colastiné with the Parana, some leagues south of the town, and it is proposed to run a branch to this port, which, while it will take the greater part of the shipping trade from the capital itself, will be under the immediate jurisdiction of Santa Fé, and will diminish the clamour of the colonists for a railway communication with Rosario, so cordially hated by the Rip Van Winkles of Sleepy Hollow. The narrow gauge was intentionally chosen to prevent communication with this too cosmopolitan and heretic town. The idea was worthy of the intelligence of our antiquated politicians. For all that, however, when Mr. Ware has thundered up to Sanchales with his huge engines, on a broad gauge line, I fancy the trembling Santafecinos will hardly be able to hide themselves out of sight behind their narrow gauge When a thirty-five ton engine, which, I hope, will be christened "The Gentle Cura," pulls up before the Mercedes Church, the old fogies will all shut themselves up in the "Vieja Aduana," with a few 'brazeros' of charcoal, and immolate themselves, like to the manner of the "Happy Despatch" of the Japanese. So be it!

I feel I am trenching on the ground of your respected chief, who will undoubtedly send you some interesting letters anent the subject; but, I am afraid, he will not appreciate the virtues of Sleepy Hollow as I do.

The Santa Fè Land Company intend, I understand, to run their railway from Malabrigo, a point about nine leagues south of "El Rey, or what is now the colony of Reconquista They have already agglomerated a large amount of material, agricultural implements, etc., at the above-mentioned point. In one of my letters I suggested that the railway to the lands of the Murietta grant should start from the Rey. I explored all that region once upon a time, when it was the hunting-ground of the heathen. At the Rey the San Javier river leaves the Parana to wind about the strip of low lands that border the Chaco side as far down as Santa Fé. At the point of departure the Indians call it the Curupi, and it is very deep. A good harbour could be made here, quite accessible from the high land. I suppose the colonists of Reconquista have long ago taken advantage of it. The Parana in front would float a navy, and is full of lovely islands, wooded to the water's edge. I expect, however, civilization has not improved nature as I found it. At Malabrigo the high coast is separated from the Parana by the strip of low, swampy land I have referred to, which is at this point about 15 miles across, and at this time overflooded. The work of discharging and landing materials at Malabrigo is difficult, not to say impossible, at present. I think the Company have committed a grave error in selecting the mouth of the Malabrigo as a point of departure. I see only one way of getting out of the difficulty, and that is, constructing a railway on piles across the swampy land, and make their port on the Parana. Had the owners of the Alexandro colony, similarly situated, done this, they might not have come to grief.

In my last, I said that if Dr. Rocha had any partizans here they had not put in an appearance as yet. Since I wrote that letter, however, not only have his friends shown their hands, but a daily paper has been established, *La Opinion*, very well got up, and edited by Dr. Monguillot, a talented lawyer, and about the most respectable of our newspaper writers in Rosario. Three of the candidates have now their organs in this town. The principal papers, the *Capital*, *Independiente* and *Comercio*, fly the flag of Juarez Celman. The *Mensagero*, an evening paper, has turned its coat, and supports Irigoyen, and now the *Opinion* has opened the campaign for Rocha. Now that the Mitre party have joined the Clerical party, Dr. Gorostiaga is, by no means, a myth; but I cannot very well understand the tactics of the Conservatives. Irigoyen ought to be quite conservative enough for the Mitristas and Clericals, and now they have debilitated their forces, which, to have had a prospect of success, should have been concentrated on one candidate. On the other hand, we may say that the out and out Liberals have also divided their strength between Juarez and Rocha. The country is in for a quadrilateral political duel.

I wonder if the readers of the STANDARD are familiar with Martin Tripper's "Proverbial Philosophy." It was supposed at one time to be a mine of wisdom, but the mine was neglected. I see that a contemporary of yours has sunk a shaft into it and takes out hebdomadal baskets full. The work appears easy enough; in fact it puts me in mind of the immortal Touchstone's critique on Orlando's verses to Rosalind.

"I'll rhyme you so eight years together, dinners, and suppers, and sleeping hours excepted; it is the right butter-women's rank to market."

I am fired with ambition. Will you let me try my hand at a little Proverbial Philosophy? I do not see why one paper should monopolise the commodity. Here goes:

The new Gefe Politico is six feet two inches high; I hope he will not overlook the crimes daily committed in Rosario.

A telegraph despatch tells us the nose of the gentle Cura was very red yesterday morning.

When the nose of a Governor is red it is certain things are beginning to look blue.

On account of the dearness of bread and meat, Mrs. W. P. has placed the family on half rations.

I can always supplement my breakfast surreptitiously at the resturant; my children, poor things can't.

The other morning early I saw a young friend at the bar of a café with a glass in his hand; shocked at the sight I entered to remonstrate.

"Young man, "said I" are you not aware that drinking spirits at this early hour———

He interrupted me: "Won't you have a cocktail, W. P?"

I answered: "Well I don't mind if I do."

Query, will the general use of iron fences for cattle lead to the use of *steelpens* for sheep? (Brander.)

It was Fanny Fern that one day complaining that men were fast, was answered that they have to be to catch the women.

A jolly sailor reeling along the street struck up "We won't go home till morning." Our new Gefe de Policia verified his prediction by locking him up all night.

I see that a monster soap manufactory has been started near Belfast. Are the Irish about to commence lathering the Saxon?

W. P.

EDITOR'S TABLE.

Yesterday was a stirring day enough in town. The rise in gold to 34.80; the revolution in Corrientes; the sudden getting ready of two steamers to send up the river; the astounding news of our colleague, *El Diario*, that the French packet took to Europe nine millions of National Dollars, in gold, and the squeeze at the National Government land auction, when lots on the mountains of Nauquen were again bought up at four thousand five hundred Nats. per league—all formed a day's chapter of events sufficient to occupy even those who stand on life's side-walk to watch the passing show.

The *Flores Parish Magazine* for July, was given round yesterday; it is brimful of nice home reading. Dr. Mackern gives another interesting paper on dress with relation to health.

The death of the Mahdi, as announced by telegram, is an event of the most surpassing importance. He was a most wonderful man, and possibly another century must elapse before we have another Mahdi whose crusade is to extinguish Christianity.

Our colleague the *Libertad* has passed into new hands. We hope it will continue to be as well edited as up to the present. The name of the new editor is not given, but the paper is Celmanista up to the eyes.

Dr. Ortiz acts for the present as War Minister.

The marriage of Miss Candelaria Lezica to Sr. Serrantes on Saturday night, was a most brilliant affair. The quinta was lighted up, and the saloons were crowded with some of the most fashionable people of Buenos Aires. The Archbishop's secretary, Dr. Espinoza, officiated, and Dr. Dardo Rocha acted as padrino; dancing was kept up to a late hour, and the happy couple left Caballito for town shortly after supper.

We regret to say that yesterday we received very bad advices from the South; the sheep are in very poor condition and, as the weather is severe, there are great losses in the flocks. Cattle are also very thin and the South farmers say that this is one of the worst winter seasons they ever recollect.

The works of the new railway from Parana to Concepcion del Uruguay will begin this week, and will be carried on without the least delay. All our friends in Entre Rios are in high spirits, and see in this important enterprise a new departure for Entre Rios.

Messrs Balcarce have just sent on 8,000 head of cattle to their new estancia at General Acha, which is situated some 40 leagues West of the Alsina ditch and yet, notwithstanding this great distance, we learn that there are several estancias stocked and settled on still further out, and that 2 Englishmen have started on their own lands much further than the Balcarce estancia, and with 5,000 sheep. Messrs Balcarce are wire-fencing several leagues of their new lands, and Mr. Cambaceres who also has an estancia out there of 40 square leagues is also wire-fencing a portion of his lands. In fact, people here in town know nothing of what is going on outside in those very remote camps. From the railway to Balcarce's estancia at Acha there is one continuous string of estancias, all stocked with sheep and cattle and some of them wire-fenced.

The Afghan Ameer is said to be so dignified that he never shows surprise or manifests astonishment at anything, but it is thought by some that Russia is preparing a little surprise for him and one that may move him.

We feel the keenest pleasure in saluting our French fellow-citizens on the occasion of their annual fete. The proceedings to celebrate the day will be multifarious and merry—banquet at the French Club last night; grand doings at the new French Hospital; poetry, prose and performances at the Opera House and Skating Rink; dozens of balls given by the French Societies, and last, not least, a grand flare-up of the Lord Mayor's Folly in Plaza Victoria. "Vive la France."

The rain and wind on Sunday evening again knocked the contemplated "fiestas Julias" on the head. In spite of the intense cold and sleety mist the upper two-and-a-half did their usual Dominical drive to Palermo with dreary religiosity. They are to be pitied, as fashion seems to have laid down some Draconian rule that prohibits their alighting from their vehicles and warming their feet by a good brisk walk. It "friz" four degrees on Sunday at 4½ p.m.; and ever so many more degrees during the night. Yesterday was the coldest day we have had this year.

Reuter's Life Syrup No. 2!

A **positive** and radical cure for **every form of** bad blood, foul humors, scrofulous sores, Ulcers and Tumors, guaranteed to cure and eradicate every vestige of Syphilis, **primary, secondary and tertiary.** It is the only cure known for Leprosy, or Psoriasis, cancerous lumps, scaly and scabious eruptions, mercurial itching and pimply affections. **Warranted to be** a safe and certain remedy for all diseases of the Kidneys, such as Bright's Disease, Granulated Kidney, fatty degeneration, chronic inflammation, etc. The best of all stimulators and correctors of the Liver, promptly removing torpidity, hardening, and enlargement, liquifying the bile, causing it to flow freely into the bowels, thereby preventing and removing constipation, dyspepsia and indigestion, thus removing the cause of headaches, dizziness, nausea, palpitations, hysteria and fainting. ... fair trial of the **Life Syrup No. 2,** is ... that is asked. We positively Guarantee **A COMPLETE CURE!**

We thank the Frenc... for their invitation to attend ... to be held at the Skating Rink ... o'clock to-day. The meeting is to ... cosmopolitan, all nationalities being invited. In cordially acknowledging these fraternal and democratic salutee, we hope the Committee will allow all youthful poets to recite any verses on the occasion of this anniversary. The local muse is ever in her glory in 'fiestas' of this nature; and this, undoubtedly, is one of the many amusing features of such jollifications.

A Card.—James Stevenson, sincerely grateful for the many marks of distinction bestowed upon him by the public, takes this opportunitw of reiterating his heartfelt thanks, without omitting a special word for those whose thoughtfulness caused the presentation, which they are assured the 'beneficiaire' appreciates far more than the intrinsic value of which he was made the possessor.

There was alarming news from Santiago del Estero yesterday, if any news from such remote, melancholy and slow quarter is worth regarding as such. The Government and the opposition party are said to be preparing for a shindy at the approaching proclamation of one of the Presidential candidates. On untutored outsiders this perpetual proclaming of candidates has a most ludicrous effect.

A genius named Moggio has made a cool request of the National Government; viz, to make him a present of a small steamer and 3000 Nats, to experiment on a substitute for coal as fuel for steamers which he claims to have invented. Genuine inventors are modest. The 'cheek' of this one argues strongly that his fuel is worthless

The most extraordinary romance of the sea on record is that of the steamer Humber, which has just turned up at Liverpool, New Scotia, having been missing for 115 days, during which she was blocked in ice. She sailed from New York for London on February 15th, and was considered lost, an obituary of the captain and list of the passengers lost having appeared in the *Times* two months ago. Even in the days when steamers were unknown, such a case as this was seldom, if ever, heard of.

The Colon Theatre was crammed to the skylights on Saturday night at Tamagno's benefit. Not room for another mosquito. The tenor was called out 15 times, and got a lot of presents. President Roca was present, H.E. did not know it was the tenor's benefit; but when he became aware of the fact he took off his watch and chain and sent it to Tamagno. who wept when he received it. The watch is of great value, with the Argentine arms and President Roca's initials on the covers.

It's a Norwegian barque, not a Britisher, that has been totally lost on the English bank.

The telegrams announce that the Rioja Chambers have passed a vote of confidence in the Executive. By all accounts, it was very badly wanted.

The police are now engaged in unravelling a horrid crime; the poisoning of a young German clerk in one of the private banks, the culprit being his own wife, to whom he was but a short time married. There is also another culprit in this lamentable case. The whole thing will come out in a few days.

The Post Office has got decidedly the better of an evening colleague that complained of the postal service on Sundays. We're glad of it, as we rather like the Post Office; although it sometimes takes its time about delivering letters.

NOTICE.

Parents and Guardians intending to enrol children at this School, are requested to do so AT ONCE; as no more DAY-PUPILS can be received for this Session AFTER THE END OF THIS MONTH nor any more BOARDERS after the few remaining vacancies are filled up, the chool being already full.

Teaching-Staff

The Staff, which is now completed, consists of the following; and, as will be seen by the qualifications appended is, perhaps the best working-staff to be found in any private school, Native or Foreign, in the Argentine Republic.

I—Rector, A Watson Hutton, M.A., F.E.I.S. Master of Arts ("Honours" in Philosophy, Edinburgh University); Fellow of the Educational Institute of Scotland, First Prize Essayist (Educational Subjects) Edinburgh University, Session 1879-80; and, for more than eight years one of the Masters of George Watson' College, Edinburgh.

II—Lady-Superintendent, Mrs. Hutton, Government Certificated Teacher; 'Queen's Scholar' of the Normal Training College, Edinburgh; and for more than seven years Chief Lady-Teacher in George Watson's College, Edinburgh.

III—Spanish, French &c. Master, M. Edmund Reydams, "Gradué en Lettres," Brussels University.

IV—Elementary Mistress and General Assistant, Miss E C Waters, Government Certificated Teacher, for over eight years one of the Teachers in George Heriot's Out-door Schools Edinburgh; and lately in Viscountess Keith's School, Kincardine-on-Forth.

V—Music Teacher, Miss M A Russell, lately of the Ladies' College, Edinburgh, where for the last ten years she has been teaching the Piano and the Harmonium in co-operation with Professor F W Bridgman, the leading Music Master in Scotland.

VI—Drill Sergeant and Gymnastic Master, Mr Wm. G. Water, lately of the First Edinburgh Rifles, and Cowan's Gymnasium, Edinburgh.

EDITOR'S TABLE

(*Continued from 1st page*

The *Tribuna* says that the *Nacion's* account of how the Krupp guns were landed at the Boca is a soap-bubble. The million of Nats. paid for them is, unfortunately, not of the saponaceous description.

The National College in Calle Bolivar is to be enlarged, on the plans of Mr. Rosetti, C.E. There is such a number of applicants thirsting for knowledge and admission that the premises have become too small.

The river Uruguay was rising faster than the premium on gold on Saturday —two and a half metres in 24 hours. What it is doing now we really cannot say.

Dr. Plaza will start for Europe on the 27th inst. We wish our distinguished friend all sorts of pleasure during his trip.

The New York *World* says :—The late lamented Earl of Dudley was chiefly distinguished as a remarkably sharp and shrewd coal dealer, and, poor man, he's a deal colder himself now.

The *Canada Lancet* attributes to our own Dr. A. L. Loomis the startling statement that "a man can take two or three glasses of stimulants daily and may continue the habit for perhaps twenty-five years without harm," but that there will come a time when he will find that he has "all these years been laying the foundation for chronic endoarteritis." Meanwhile, in spite of this terrible warning, laying the foundation for chronic endoarteritis seems to continue.

Mr. Rafael Calvo, the actor and empresario, seems to have done rather better than his confreres this season, in spite of his fiasco in La Plata. "On dit" that he takes 150,000 Nats. back to Spain with him. He was dined at the Spanish Club on Saturday evening by all the distinguished Dons in town.

A United States colleague says: "Venerable Kossuth has emerged from antiquity long enough to make the extraordinary and queerly mixed statement that Bismarck, Parnell and the Japanese Mikado are the three greatest men of the period, and while he does not consider Gladstone great as a statesman he concedes his eminent ability as a wood-chopper, a lay reader of the Lessons in Church and as a dramatic critic.

At Balde, in San Luis, they have sunk an Artesian well of over 200 metres, and have not touched bottom yet. The *Oasis* says it.

A Rioja paper asserts that a gentleman, named Newtown (Villanueva) has been clapped into "quod" there for laughing at Governor Jamin's swallow-tail coat. A near relative of H.E. went to the Corpus Christi festivities in rather a mixed toggery—swallow-tail, white choker and kids, and top-boots outside his pantaloons! Oh! By the lord Harry!

Gas meters are notorious liars. Rarely indeed can one be found scrupulous enough to commit suicide rather than deceive a too trusting public. Yet a New York colleague records a case of this kind in the following touching words:—"The gas meter which exploded last week is now believed to have done so premeditatedly, being too conscientious to lie, so as to give satisfaction to the company in whose employ it was." We greatly fear that there are no such conscientious gas-meters in Buenos Ayres.

SANGUINARY AFFRAY AT NORTH BORNEO.

The *Calcutta Englishman* publishes a sad story from Northern Boneo. An expedition, consisting of Captain De Fontaine, Messrs. Davis, Little, and Wheatley, and Dr. Fraser, with 50 Sikhs and some Dyak policemen, left Gaya on May 13, with the object of punishing a native of Tawaran. They camped at the village of Kawang, and while resting under a tree were suddenly set upon by some Badjon baggage bearers. Dr. Fraser was at once shot dead. Captain De Fontaine fried to rally his men, while the Badjons came rushing on shouting "Amok!" Captain de Fontaine was badly and Mr. Little slightly wounded, but eventually all the Badjons were killed. The wounded men are doing well.

COLLISION BETWEEN A TORPEDO BOAT AND AN IRONCLAD.

A collision is reported to have occurred in the roads at Cronstadt between the torpedo boat Kassatka and the war steamer Fontaka. The latter was seriously damaged, and nearly foundered. She was, however, run on shore. The Kassatka seems to have escaped injury.

Missing Friends.

Information is desired of the present whereabouts, death or next of kin, of the following persons:—

John Milne
A master mariner, age 55, left London for Buenos Ayres in the Rosita in May 1884.

Robert Rice
Left London in May 1884, supposed to be an engineer, was last heard of in S. Nicolas.

Alexander Simpson
Heard of last November, was lodging with a French Ironmonger and had been employed in a Dockyard at Buenos Ayres.

Michael Daley
Supposed to have sheep with Mr. John Duffy, Carmen de Areco, and had been in the British Hospital.

William Roethgar
Of Junin, supposed to have died November 20th, 1884.

Henry L. Thompson
Left St. Castle Hill at Buenos Ayres on July 1881.

William Winn
Left Liverpool on 5th Sept. 1879. Mother wishes him to return, has not heard of him for 5 years.

Joseph Adams
Served on board steamer Scotia, and was in Hospital at Buenos Ayres.

Edward Holland
A carpenter, left St. Helena in barque Tenedos for Falkland Islands.

Samuel Mingay
From Scotland.

Donald McPhail
Was third Engineer in the steamer Mercurio in 1884.

Handley
A Civil Engineer engaged in railway construction.

Thomas L. Evans
Left England in 1874, was last heard of at Welsh Colony, Chubut.

F. Clarke
Lived in 1882 with late Consul Pauli at San Isidro.

Nicol McNeill
Was near San Nicolas 3 years ago, has a brother, Donald McNeill, Colonsay.

Edward Boyle
Reported to have been murdered at Buenos Ayres 2 years ago.

Peter Libby
Left Falmouth 50 years ago.

John and Logan Chandler
Who came from Suffolk long ago.

Matthew Muir
Captain of a Dredge, in employ of Argentine Government, who died in Santa Fé, April 1883.

William Daley
Died recently at Buenos Ayres, leaving property, had brothers, Andrew, John, Michael and Patrick, and a sister Ellen.

John Thompson
Died at Mr. W. Stevens's, Calle Cuyo, in July 1883.

Clement Reader
Died at British Hospital January 1871.

Samuel Howard
Died on board a steamer in Alta Parana in 1878.

John Meyerovich
Left Odessa 1882 for Buenos Ayres.

Joseph James Benwell
A Seaman, was heard of in Buenos Ayres March 1885.

Ewan Christian Lloyd
Civil Engineer, came from Liverpool end of 1884.

Ronald Bridgett
H.B.M. Consul
British Consulate
272 Calle General Lavalle
17th June, 1885.

Banco de la Provincia de Buenos Aires.
Recibe depositos voluntarios que no bajen de $10 m/n.

Estos depósitos ganaran interes si permanecen 60 dias; pasados estos, se les abono el interes desde el dia de su entrada.

Los intereses se pagan en los primeros dias del mes ó en el momento de retirar los depositos, y los no cobrados durante el año se capitalizan concluido el deposito.

Todo depósito ó premio se inscribe en una libreta que el Banco entrega al depositante, en la cual consta ademas las salidas por paga de intereses; no entregándose ninguno sinó en vista de la libreta respectiva.

Recibe depósitos comerciales disponibles en todo momento, como los anteriores.

Descuenta tres veces en la semana, Lunes, Miercoles y Viernes, letras con firmas abonadas á plazo de 90 dias, lo mismo que pagarés de comercio desde 7 dias hasta 6 meses, con la condicion de ser abonados intégros á su vencimiento.

Dá libramientos á tres dias vista sobre las Sucursales de La Plata, San Nicolas, Dolores, Chivilcoy, Mercedes, Lobos, Salto, Azul, Baradero, Chascomus, Tandil. 25 de Mayo, Lujan, San Pedro, Pergamino, Las Flores, Bahia Blanca, Ayacucho, Bragado, Arrecifes, Giles, Olavarria, Saladillo, Ranchos, Rojas, Magdalena, Balcarce, Patagones, Chacabuco, Alvear, San Antonio de Areco, Lincoln, Mar del Plata, Barracas al Sud y sobre las Agencias de Belgrano y San José de Flores.

Las Sucursales dan cheques contra la casa central al portador nominales y cruzados.

El Banco abona comision á los corredores en la primera introduccion de las letras y pagarés al descuento.

De la Cabaña
"El Rosario"
De los Señores
Francisco Chas e hijos.

Participamos a los Señores Estancieros, que el dia 24 de Setiembre proximo tendra lugar el único remate que daran los Señores Chas este año de los productos de su famosa cabaña y les anticipamos: que los animales que venderemos dicho dia, seran tan sobresalientes que levantaran, si es posible el justo credito que tienen adquirido los 'Negrete Argentino' (sangre pura original Negrete) de la Cabaña 'El Rosario.'

Del Sr. F. von Homeyer
Venidos a la consignacion del
Sr. D. Hugo Bunge
Se Remataran
En nuestra casa
78—ALSINA—78
El Miercoles 15 de Julio 1885
A las 2 p.m.

Es ya tan ventajosamente conocida esta afamada cabaña que creemos excusado decir una sola palabra sobre sus productos, pero mencionaremos unicamente que el Señor von Homeyer. escribe al Sr Sasemberg representante en ausencia del Sr. Bunge, de aquel Sr. que el lote que ha remitido este año es lo mas notable que ha enviado al Rio de la Plata desde 25 años atras.

Invitamos a los Sres. cabañeros pasen por por nuestra casa, Alsina 78, donde podran inspeccionar este lote.

Catalogos con edad de cada animal se repartiran antes del dia del remate.

A las 2 p.m.
En nuestra casa
78—ALSINA—78

Estos magnificos carneros venidos en el vapor aleman Desterro, a la consignacion de los sres. Mallmann y Ca, provienen de tres de las mas conocidas cabañas alemanas, una ya ventajosamente conocida entre nuestros criadores, a del Sr Baron von Richthofen en Kuhnern. Este lote se compone de 14 moruecos de 2 años de edad, entre los cuales vienen 9 animales de reserva y todos vienen con un año de lana.

Cabaña de Parsko

Esta cabaña envia por primera vez de sus productos a este pais y no dudamos que encontraran un buen mercado, tanto por la finura del vellon como por los tipos y configuracion de los animales

Son 13 carneros merinos Negrete, de los cuales varios de reserva, y han servido en la cabaña.

Cabaña Hohenlandin

Tambien es por vez primera que su propietario el Sr. D. R. Müller, envia carneros para venta a este mercado y ellos nos vienen muy recomendados; son solo 7 moruecos Rambouillet de lindos tipos y vellon tupido y finura relativa.

Catalogos de cada lote se repartiran antes y para el dia del remate pudiendo los interesados examinar los animales desde hoy, Alsina No. 78.

JUDICIAL
De Una Legua
DE
CAMPO
El Domingo 26 de Julio
En el pueblo de Junin
Hotel de D. Antonio Valente
(Plaza principal)
A la 1 p.m.

Segun el aviso publicado en los diarios "La Plata," "El Dia," y "La Prensa." Una legua de campo perteneciente a la sucession de Don Manuel Villarino, conocido por de D. Alejandro Perez de Villarino.

La Estacion Vedia del Ferro Carril Trasandino se encuentra a quince cuadras de este campo; estacion importantisima por su posicion con relacion a Lincoln, Lavalle, y Colonia Feodelina, por ser el punto esclusivo de comunicacion de estos tres centros de produccion, con los mercados de la capital de la Nacion y de la Provincia, Ferro Carril a San Nicolas etc.

El campo linda con los establecimientos del Dr Green, J y B Suarez, Santos, Martinez y Quinteros, y a 20 cuadras de San Carlos, del Sr Oostendorp, y los interesados que quieran ver el campo pudran ir en un tren que sale cada dia de Junin a la estacion Vedia.

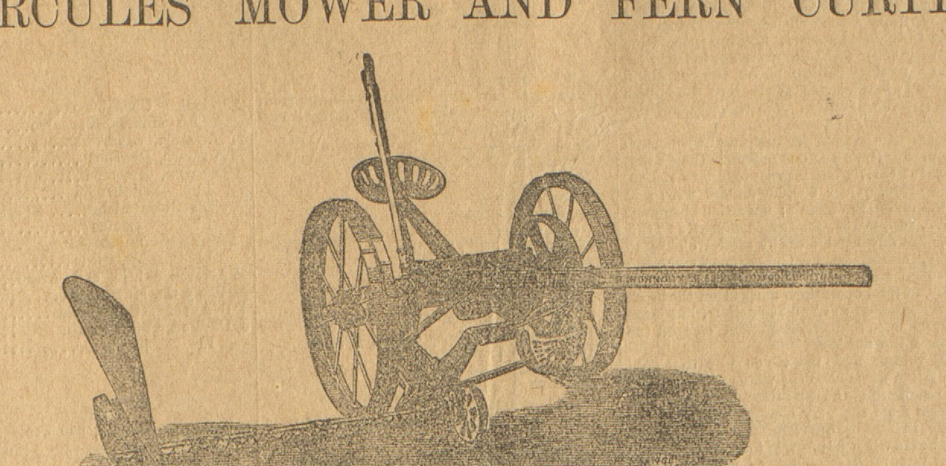

Este campo poblado de muchos años, y recargado haste hace años, con 2500 a 3000 cabezas de hacienda mayor, con 4000 ovejas, y un cultivo constante, de 40 a 50 cuadras anuales, se encuentra en condieiones escepcionales de refinamiento el grado de reproduccion espontaneamente, a cardo asnal, de castilla, trevol, flor morada, capique y muchos ricos pastes.

El establecimiento tiene una magnifica monte de acacia y sauce lo suficiente para alambrarlo 3 veces su area,

HERCULES MOWER AND FERN CURTTE

This machine has been specially designed for the Colonies and other new countries, for cutting strong thistles, fern and light scrub on rough land, and has been most successful in Autralasia and South America. It has very high wheels and is of great strength combined with lightness in draught.

The cutting apparatus consists of 2 sets of knives, one set fixed to the Bar in place of the Fingers, and the other driven by the Crank plate and connecting Rod in the usual way.

The unanimous verdict of all who have worked this machine is that it is the

"Most useful and economical implement on the estancia."

Great Public
LAND-AUCTION
National Government Sale
LANDS
FOR THE
Million
Lands for Estancieros
Lands for Sheepfarmers
Lands for Colonists
Lands for Chacreros
Lands for Everyone
500
SQ. LEAGUES
IN THE VALLEYS
OF
NAUQUEN and LIMAY.

The following is the official notice of this Great Land Auction, which will bring buyers from Europe to invest:—

OFICINA CENTRAL DE TIERRAS Y COLONIAS—Remate de Tierras Nacionales—Con arreglo a la ley de 3 de Noviembre de 1882 y en virtud de lo dispuesto en el decreto de 27 de Marzo ppdo. se venderan en remate publico once secciones de terreno situadas en las confluencia de los rios Limay y Nauquen. La base para la venta sera de 500 pesos la legua. El precio de la tierra debera pagarse la 6ª parte al contado y el resto en cinco cuotas iguales, una al vencimiento de cada año. Las licitaciones tendran ugar los dias 1º al 21 de Julio proximo en la Oficina Central de Tierras y Colonias, establecida en la calle de Salta num. 8 esquina á Rivadavia. Para Planos y detalles, ocurrase a dicha reparticion.—Buenos Aires, Abril 23 de 1885.—EL SECRETARIO.

The general topography of these lands is of the same nature. Without being exactly montainous, the camps are undulating and in some place present the aspect of plateaus where trees grow in profusion, and an abundant mountain grass (' pasto de las sierras'') are everywhere to be seen in luxuriance. The valleys or hollows contain innumerable breaks which are a proof of the action of water at a very remote epoch; but these "quebradas" are now dry. However, the grasses and general vegetation seem to meet with no impediment to their growth anywhere. Towards the Nothwestern limit of the polygon slope measured there runs a long or "cañada" which comes to an end in the Arroyo Covunco. The cañada is abundantly watered and soft grasses such as the gramilla, travol etc. grow in wild profusion.

The valleys along the River Nauquen and Limay are fertile although sandy and comprise small traes of flat lands. Nevertheless, there is a sufficient depth of humus to qualify the land for all agricultural purposes. Grasses grow in abundance especially in the "rinconadas" and in the innumerable islands which are to be found along the course of the river. There are also various classes of forest trees including sarsaparilla.

The valleys are fertile and with rich black earth suitable for agriculture. Along the Limay and on the islands there are forest of Sauce Colorado and Blanco which timber is very useful for building purposes, and it may be added that the Limay on its entire length is navigable for small steamers and vessels that can connect with the navigation of the Rio Negro.

AVISO
IMPORTANTE
—(0)—

Como Corredor Oficial del Banco Hipotecario, pido á los señores que me han visto con anticipacion, como asi mismo á los que deseen hipoticar sus propiedades rurales ó urbánas, me remitan los Titulos, pues el dia 12 del corriente, dicho Banco reabre sus operaciones con la Série G. de 7 o/o de interes, las que saldran en circulacion desde el 1º del proximo Agosto. Asi mismo hago presente a mis numerosas relaciones que me hago cargo de toda clase de operaciones, relativas a dicho Banco, como chancelaciones, trasferencias, etc.

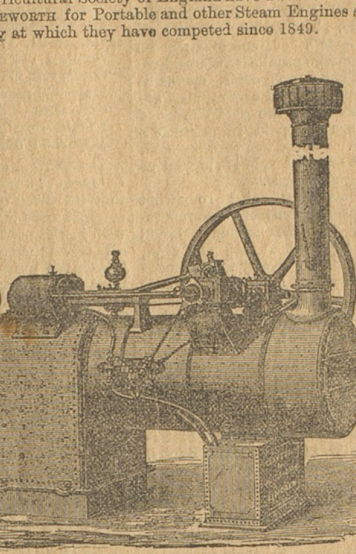

Natal T. de Torres
San Martin 73 (altos).

NOTA

El interesado que se encuentre fuera de la Capital, con escribir y enviar el Titulo del bien raiz que desee hipotecar bastara, pues solo para recibir las cedulas y firmar la escritura, se le avisara, no perdiendo asi tiempo alguno.

BORWICK'S
BAKING POWDER

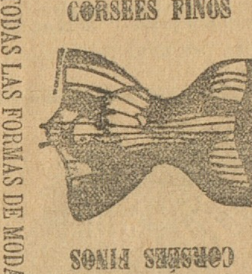

Used by thousands for making wholesome Bread, Cakes, Flour Puddings, &c. Sold in 1d & 2d. packets and 6d. & 1s. boxes, by all Storekeepers and Grocers

Invaluable at the Diggings and in the Bush, also on board Ship, as small loaves of the best Bread or Scones can be made in a few minutes without the aid of Yeast.

Private Ward, during the Zulu war, writes:—"I should just like you to see the real farm-house bread that I bake! The oven is one dug in the ground, and is just large enough to hold our daily quantum of two loaves. We use flour, water, salt, and BORWICK'S BAKING POWDER. My bread often surprises me, it is so light, and white as snow. Some of our men will insist that I have been 'in the trade,' and nothing I can say will convince them to the contrary."

SAMUEL RICHARDS & CO., LONDON—SOLE AGENTS FOR HEIDSIECK & CO., REIMS.

Dysentery, Cholera Fever, Ague Coughs, Colds, &c.
Dr J. Collis Browne's Chlorodyne
(Ex Army Medical Staff)
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.
REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.
CHLORODYNE effectually checks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.
CHLORODYNE acts like a charming Diarrhoea, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congralulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

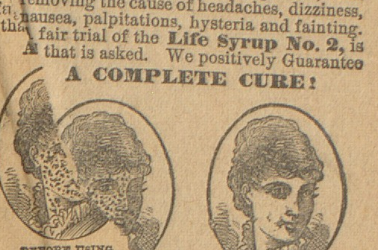

CAUTION—None genuine without the words 'Dr J. Collis Browne on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer

ON 'CHANGE.

July 13th, 1885

Gold	133.50
Cedulas A	100½
Cedulas E	79½
Cedulas F	79

The bullish breeze assumed the violence of a stiff gale this morning and a stand-from-under feeling prevailed all day in speculative quarters. Affairs opened with a very rising tendency in the gold market, and the speculation was very brisk until the premium touched 33, when a panicky feeling shook the bears and the whole market was swept into the bullish vortex. The premium rose steadily to 33.80 and closed firm as a rock.

Operations in gold for cash and to-morrow embraced about 100,000 dollars; the market opened at 131.70, and rose gradually to 133.60, closing rate. Over 900,000 dollars were sold for the end of the month; operations began at 131.70, rose to 133, fluctuated violently at this rate, but advanced steadily after 1 o'clock to 133 80, closing rate. Operations for the end of August embraced 180,000 dollars at 132 to 133. The total operations marked on the black board amounted to 1,226,200 dollars, but large amounts were sold privately and escaped the notice of the marker.

The volume and the violence of the gold speculation astonished the whole market. The firm reaction in the premium gathered fresh strength from the very heavy purchases made to-day in strong quarters. The bears lost their heads when 33 o/o was touched and helped to put up the market to such an extent that brokers found it a most difficult task to buy as everybody was buyer and nobody would sell.

The cause of the rise was chiefly attributed to the news of disturbances in the Province of Corrientes. The news was rumored in town yesterday and was confirmed and much exaggerated to-day, but this military mutiny cannot be considered the powerful lever of the rise. The truth is that the large operators who sold steadily in April, May and June are now obliged to buy back, at a moment when exchange is falling, gold is in demand, and specie is being shipped in large quantities to Europe. The revolutionary news from Corrientes threw a little more excitement into the speculation and under panicky influences all began to buy to-day and pushed up the market about 3 o/o. The principal sellers were parties who had bought gold at 30 and lower.

The cattle-king, who is keenly watched and tracked, appeared to be on the horns of a dilemma, but he began buying at 33 o/o and sold at higher rates. The scene at the ring baffled description, and all were staggered as the market jumped under their feet. The brokers had all their pockets full of orders which they could not carry out during official hours, and afterhours dawned with a very firm tendency.

The *Diario* states that the packet took nine million francs gold—the largest shipment of specie on record in the R. Plate. One of the private banks, it is rumored, shipped the bulk of the specie. The moral influence of such large shipments of specie may be imagined in the heated, speculative atmosphere on 'Change. Ordinary gold coins, exclusive of sovereigns, napoleons and argentinos, are becoming very scarce, and the gold checks of the State Banks are now paid in argentinos in many instances. It need not be wondered, therefore, that this special coin is shipped as it leaves an excellent margin.

Exchange this morning ruled somewhat firmer. An exceptional business was reported to-day at 46⅞, for a fair amount. Small operations were reported at 46⅝ and 46½d, 4 90 to 4.91 francs. The money market continues glutted with paper and rates are easy at 6 to 6½. Government Bills are in demand.

Cedulas ruled slightly weaker. A few thousand Series A changed hands at 100½. About 36,000 E were sold cash and for to-morrow at 79½-¾. Operations in Series F embraced 8,400 cash at 79 to 79⅛, 10,000 for to-morrow at 79, and 30,000 for the end of the month at 78.

The interviews between the Minister of Finance and the Presidents of the State Banks, lead to the belief on 'Change that there is something in the wind. The first interview took place on Saturday, and it was rumored that another meeting had taken place today. The upshot, no doubt, will be harmony between both State Banks in their exchange operations. It is believed that both banks will immediately begin drawing.

Activity in the produce markets is now limited to a dull, "one-horse" business in cereals. The stock of wheat in hands of speculators in this market is not great, and in spite of the sudden rise in gold since Saturday, there was little life in the markets this morning. The millers are operating with great prudence and hold aloof, although their provision of grain is small and threatens to run short.

The wheat speculators of Rosario and Santa Fe have made such fortunes in the last four years that they can afford to rig the market and hold on to their stock of grain for a lengthy period. They are determined not to let go at present prices, and they will, no doubt, put up the value of wheat, if they reduce or stop their shipments to this market, as they did not very long ago when the accumulation of grain weakened quotations. If the speculators of the neighbouring province adopt this course, the millers of this market will be cornered and in the necessity of paying the prices demanded by the holders of the grain.

Arrivals of wheat in this market are necessarily small, and the harvest is yet far off. Little or nothing can be expected from Azul, or Olavarria, as those districts are scantily supplied and have just enough for local consumption. Arrivals from the Salado cannot amount to much, as the harvest of that district has been both inferior and small. Farmers sowed much less than in previous seasons.

The imports of flour from Santa Fé into this market show a steady shrinkage for the last six months. Arrivals are much smaller than in former years. The fact is that the Santa Fe millers in the first quarter of the year found a splendid market all along the Litoral and in the provinces of the Interior, where consumption is increasing fast every year, owing to the high prices, raised by a speculative ring last year. The Interior provinces bought small supplies and when the market fell they entered to buy heavily. The millers of Santa Fe are no longer so dependent on this market as in former seasons, owing to this fact. Furthermore, they have coined money in three or four prosperous seasons, and they are now fast becoming speculators, and none need wonder at the fact if they hold at present a stock of from 80,000 to 100,000 bags of wheat, which they may keep in deposit as long as it suits their convenience. They may hold on till the month of August, when the mills, as a rule, stop working, in order to make repairs or renew cylinders. In this case, flour would rise also.

Mr. J. M. Benitez, the well-known land-broker, sold to day two leagues of land in the Province of Santa Fe, on the Cordoba frontier, at the rate of $7,000 m/n per league. Seller, Mr I. Ochoa; buyer, Mr. Insausti.

Telegrams from Rio quote exchange on London at 17⅞d.

Mr. Haddock was welcomed to-day on his arrival from Ajo. He reports very heavy rains down there and camps covered with water in many parts.

Twelve leagues of land in the IVth National Section were sold to-day at reserved price. It is rumored that the land was sold at 8,500$ m/n per league.

The *Revista Financiera* of this week publishes a very able article on protection and free trade throughout the world. Our colleague is thoroughly at home on these topics, and his opinions on such subjects carry much weight in the market. Our colleague is a strenuous advocate of free trade.

The following is a summary of operations effected this morning at the ring during official hours:—

Gold—

The gold market opened firm as a rock at afterhours, and buyers crowded the liquidation parlor. Speculation ruled brisker there, and more feverish, than at the ring in the morning. The premium was rapidly pushed to 34, and the bears shivered as the rate continued rising. When the premium reached 35, there was a pause and the decline began. Rates tumbled back headlong to 33.50, when fresh buyers entered the parlor and bulled the market till the premium stood firm at 34, closing rate for the end of the month. The speculation during afterhours was most exciting and the uproar in the back parlor filled the hall. The following business was reported:—

200,000$ cash and 15th at 33.80 to 35.
500,000$ for 30th from 33.40 to 35.
250,000$ for Aug. from 33½ to 34.

The market, at 5 p.m., closed at 34 for the end of the month. Forty thousand Cedulas E were sold at 79½ for to-morrow, and 30,000 F at 78⅞ and 79. The market closed under the influence of the news that the National Government had given orders for the despatch of three war-vessels to-night with troops of the line for Corrientes. It reminds one of old times.

The undernamed ships wished to be reported all well:—

"June 27th—Lat. 8.34 N., Long. 27.41, spoke the American barque Lorence.

"July 1st—Lat. 5.13 S, Long. 33.19, spoke English barque, showing P M C V.

"July 8th—Lat. 33.43 S, Long. 52, spoke Italian barque, showing O S T J.

"Steamer Galileo, July 12th, 1885."

From the Plaza Once de Setiembre we have the following:—

165 waggons arrived with produce.
The arrivals were:—
496 doz. sheepskins
1,590 doz. corderitos
120 lb nutria
343 cow hides
83 potro hides
50 nonatos
30 bordalesas tallow
85 @ hair
1,330 bags flour
1,800 bags wheat
3,146 bags maize
560 bags bran
100 bags colza
30 bags linseed
385 bales hay
20,150 bricks
and much other produce.

Wool and sheepskins show no change from previous days. Hides, hair, cereals and hay maintain firm prices.

The sales were:—
Wool—
No sales.

Hair—70 @ at 170, 168, 167
Cow Hair—20 @ at 120
Nutria—100 lb at 5½
Wheat—100 fan. from Costa, 120

The New York *Commercial and Financial Chronicle* of June 6th expresses a strong hope that the silver question, which is causing so much anxiety in the U. States, will be dealt with in the next session of Congress, but it adheres to the belief that the Government will have in the meantime to make some arrangement with the banks by which the latter will take over part of the silver now lying in the Treasury. On June 1st the net amount of silver held by the Government was $61,258,000, against $36,353,000 held on January 1st. During the same period the net amount of gold held declined from $141,688,000 to $115,811,000. The net amounts in each case consist of the gold, or silver, held, less the gold, or silver, certificates outstanding. The *Chronicle*, of course, expresses the views of the banks, and may possibly take too favourable a view of the prospects of the measure for repealing the Bland Act, which they are naturally anxious to promote, but it is no doubt right in pressing on the Government the necessity of doing something to free the Treasury from the present dangerous accumulation of silver. We do not think that any attention need be paid to the oft-repeated threat that unless the U. Kingdom agrees to accept bimetallism all States holding silver will sell it for what it will fetch. The idea is almost too absurd to discuss.

The telegraphs of this Province have an extension of 4,395 kilometres of wire, and a working capital of $447,761 m/n, to which has to be added that paid for new constructions, 55,878 m/n, making a total of 503,639 m/n, which represents the capital invested in telegraph lines up to the 31st December, 1884, and to be worked in 1885. The expenses during the past year have been 159,340 m/n, the gross receipts 103,909 m/n, showing a loss of 55,931 m/n. If we take into consideration the value of the services rendered by the telegraphs to the State railways of the Province and the public service it would be seen that such a loss does not exist, but would on the contrary show a considerable profit. Telegraph stations are being placed all over the Province, and most of the districts being thinly populated, it cannot be expected to look upon this department from a monetary point of view for the present; but it is expected in the future, through our increasing population and great increase in wealth and public wealth, that it will be a self-supporting institution.

Judge Tedin, of the Federal Court, has given judgment in the following cases:—

"Last March Shaw Bros. applied to the Federal Judge, Dr. Tedin, stating that they owed James Wallace, the Master of the Brit. barque Taylor, the sum of 5,184.12 m/n, balance of a freight account, and that owing to refusal of Wallace to accept the money they had deposited the amount in the National Bank. James Wallace stated that he had refused to take in payment paper which although bearing a face value equal to the amount of the balance due for freights was, owing to depreciation of the currency, considerably less. Shaw Bros., on the other hand, maintained that they had insisted on paying Wallace before the decree of forced currency was issued, but that he had refused to accept payment in the hopes of securing the difference between gold and paper at a later date, as the contract stipulated payment in gold or its equivalent in paper. The learned Judge condemned Shaw Bros. to pay the balance in gold, or its equivalent in any current money of the nation, and costs.

"Messrs. Gowland & Son brought an action against Messrs. Mallmann & Co., on the 9th of May last, for non-payment of a cargo of salt. On the 25th September, 1884, Gowland & Son sold to Mallmann & Co. 5,457 fanegas of salt from Cadiz at 10½ rls. per fanega, for the Mocorsta 'saladero' in Entre Rios, making up an amount in National money of $7,105.50. Mallmann & Co. refused to pay on the ground that they were merely agents in the purchase which was effected for Mr. E. Bunge. Bunge acknowledged the debt, but refused to pay in gold, in view of the forced currency decree. Gowland & Son refused to accept paper money and insisted in their demand against Mallmann & Co., who have been condemned to pay the amount, interests and costs."

The following telegrams from the rural departments will be read with interest:—

Ayacucho—Rainy and weather very cold. Horned cattle are thin. Six hundred cows sold at 7 m/n.

Azul—Camps in bad condition. Cattle thin, sheep middling.

Carmen—Camps are rather bare. Sheep in good condition. Slight showers of rain.

25 de Mayo—Lands outside are in a fair state, but the flocks are thin. 800 cows were sold at 7.25 m/n.

Juarez—The herds look well. 1,200 sheep were sold at 32 %. Heavy frosts every night.

Ajo—Camps pretty fair for this time of the year. 500 "novillos" were sold at 360 % per head.

Our colleague, *La Campaña*, announces that eight leagues of land, at a distance of 15 leagues from Trenquelauquen, have been rented for 2,800 m/n per annum, on a contract for ten years.

Five thousand sheep are reported sold at 32 %. 4,000 'capones' reported sold at 49½ %.

Mr. Gmo. Printzenskold, shipbroker of Rosario, in his important monthly shipping circular, under date July 1st, 1885, gives the following:—

Exports since June 1st, 1885—
15,906 dry ox and cow hides
2,271 salted hides
941 bales wool
107 bales sheepskins
49 bales goatskins
17 bales hair
135 bales sundries
6,093,300 kilos wheat
1,805,600 kilos linseed
892,200 kilos maize
153,000 kilos bran
4,121 packages silver alloy
962,750 kilos bones
374,300 kilos bone-ash
25,650 kilos horns
2,312 bales hay
207,000 kilos jerked beef
102 casks tallow

Charters—
*Ilma to load crushed bones in port for U. States or Channel f.o. at $4 or 22s
*Roanoke do maize in bags in port for Capetown f.o., reserved.
*Louise Lubeke do wheat or linseed in Boca Sta. Fe for Channel f.o., fs.27
*Rosario do maize or wheat in port for Bordeaux, fs.22
*J H Chadwick do hides and wool in port for New York, reserved.
Papa Erasmo do wheat in port for Boca Riachuelo, $3.50
Annie do maize in Campana for Channel f.o., reserved.
*Carl Rosenieus do salted hides in Puerto Gomez for Channel f.o., 27s 6d
Manhem do bales of hay in dort for Brazils, reserved.
*Kaffir Chief do maize in bags in Baradero for East London, 30s
Inés do wheat in Puerto Aragon for Buenos Ayres, reserved.
Eliza Oulton do bales of hay in port for Rio Janeiro, reserved.
Dolfin do bran and maize in port for Rio Janeiro or Pernambuco, reserved.
Skjöld do bales of hay in port for Brazils, reserved.

Those marked with an asterisk are despatched by Gmo. Printzenskold.

General Remarks—
Owing to the scarcity of disposable tonnage in port freights are nominal, and I note but little demand for vessels.

Steamers have mostly found grain or other produce here and at down river ports at rates varying from 18 to 22s for Liverpool, and 20 to 22 francs for Antwerp.

On account of the advanced state of the season I consider prospects rather dull, and steamers will for some time have to depend on low rates.

Guaranteed to be an infallible cure for Scrofula in its worst forms, stubborn, deep-seated Ulcers, Syphilis, primary, secondary and tertiary; Tumors, Foul Eruptions, Old Sores, Rheumatism, and all diseases or sores produced by bad blood or humors.

BRISTOL'S SUGAR-COATED PILLS
CURE ALL LIVER COMPLAINTS.
For Sale by all Druggists and Dealers in Medicines.

THERE IS BUT ONE American perfume that has stood the test of time, and that is Murray & Lanman's Florida Water, which for over seventy years, has been in constant use, and which is to day admitted to be the only fragrant water adapted to the various uses of the bath, the handkerchief and the toilet.

As there are counterfeits, always ask for the Florida Water prepared by Lanman & Kemp, New York.
